PUBLIC WORKS NEWS BRIEFS

The City repaved Garfield Avenue from Delaware Street to Beach Blvd. with a two-inch rubberized asphalt concrete (RAC) surface which contains crumb rubber derived from scrap tires. The project diverted more than 2,000 waste tires, that otherwise would end up in a landfill.

City of Huntington Beach Public Works Department
CC-1397 Garfield Avenue Rehabilitation Project
from Delaware Street to Beach Blvd.

Funded by a Grant from:

CalRecycle

California Department of Resources, Recycling and Recovery

This Project Repaved a City Street with Rubberized Asphalt Concrete and diverted over 2,000 Waste Tires from California's Landfills
