**SUGGESTED FINDINGS FOR PROJECTS EXEMPT FROM CEQA:**

The Zoning Administrator finds that the project will not have any significant effect on the environment and is exempt from the provisions of the California Environmental Quality Act (CEQA) pursuant to section 15303 of the CEQA Guidelines, because the project consists of the construction of one single-family residence within a residential zone.

**SUGGESTED FINDINGS FOR APPROVAL - COASTAL DEVELOPMENT PERMIT NO. 14-006:**

1. Coastal Development Permit No. 14-006 to permit the demolition of an existing approximately 2,800 sq. ft. two-story single family dwelling and to construct a new approximately 5,245 sq. ft. two-story single family dwelling with a 488 sq. ft. attached garage, conforms with the General Plan, including the Local Coastal Program. The project is consistent with Coastal Element Policy C 1.1.1, which encourages development within, or contiguous to or in close proximity to existing developed areas able to accommodate it. The proposed construction will occur on a developed site, contiguous to existing single-family residential developments.
2. The project is consistent with the requirements of the Coastal Zone Overlay District, the base zoning district, as well as other applicable provisions of the Municipal Code. The project complies with all applicable development regulations, including minimum setbacks and on-site parking, and maximum building height and site coverage.
3. At the time of occupancy the proposed development can be provided with infrastructure in a manner that is consistent with the Local Coastal Program. The project will be constructed on a previously developed site in an urbanized area with all necessary services and infrastructure available, including water, sewer, and roads.
4. The development conforms with the public access and public recreation policies of Chapter 3 of the California Coastal Act. The project will not impede public access, recreation, or views to coastal resources.
