Treasurer's Report

Period Beginning: April 1, 2014
Period Ending: June 30, 2014

Prepared by: Alisa Cutchen, CPFIM
City Treasurer, City of Huntington Beach

Portfolio Overview:

Investment Type	Market Value	% of Portfolio	YTM 365-day
Local Agency Investment Fund (LAIF)	208,101	79.9%	0.23%
Union Bank Account	52,277	20.1%	0.05%
Totals	**$260,378**	**100%**	**0.19%**

As of June 30, 2014, the market value of the investment portfolio was $260,378. The portfolio is invested in only those investments allowable by State regulations and WOCWB's Investment Policy. Such investments are purchased to meet the portfolio objectives (in the following absolute order of importance): safety of principal, maintenance of sufficient operating liquidity, and return on investment based on the market rates of investments available at the time of purchase.

Currently, funds are invested in the State of California's Local Agency Investment Fund (LAIF) and a Business Money Market account with Union Bank of California. LAIF offers local agencies the opportunity to participate in a major portfolio with immediate liquidity managed by the State Treasurer's Office (please see http://www.treasurer.ca.gov/pmia-laif for more information).

Portfolio Earnings and Performance:

Earnings generated by the portfolio are derived from interest earnings from LAIF and Union Bank. The following depicts the LAIF average monthly effective yields over the past 12 months:

LAIF Monthly Rates July 2013-June 2014:

July	August	September	October	November	December
0.267	0.271	0.257	0.266	0.263	0.264
January	**February**	**March**	**April**	**May**	**June**
0.244	0.236	0.236	0.233	0.228	0.228

Total investment income for the quarter ending June 30, 2014 was $124.05. The LAIF rate continues to be at historic lows, in accordance with the corresponding historically low investment rate environment.

Per the Investment policy, the investment portfolio shall be designed with the objective of obtaining a market rate of return throughout budgetary and economic cycles, commensurate with the investment risk constraints and the cash flow needs. The benchmark for determining market yields is the monthly average return of the 6-month constant maturity Treasury ("6 month CMT"). This is used solely as a reference tool, and does not imply that the Treasurer will add additional risk to the portfolio in order to attain or exceed the benchmark.

The monthly effective rate of return of the portfolio for June, 2014 was 0.19%, with a fiscal year-to-date return of 0.21%. This compares favorably to the 6-month CMT benchmark (as established in the Investment Policy Statement) of 0.07% for June, 2014. Again, the portfolio yield overall continues to remain very low, as expected, due to the historically low interest rates. It is anticipated that the portfolio yield will remain at these low levels for some time.

Compliance:

The portfolio is in conformity with all State laws and the 2014 Statement of Investment Policy as adopted by the WOCWB Board of Directors at the meeting of January 15, 2014. The investment program herein shown provides sufficient cash flow liquidity to meet the next six month's obligations.
