

The City of Huntington Beach Pee Wee soccer is fun for kids and parents alike! Playing physical games gives children opportunities to develop confidence in managing movement like balancing, bending or stretching, and gives parents the opportunity to socialize while watching their little ones play! With soccer, children explore new ways to move, and learn how to control these movements safely with other children. They can develop their large movement skills, control, coordination and strength as they explore this fun, active, physical play. And soccer is not only FUN! ... it helps children to become confident in their movement skills, social skills, and to develop hand-eye and foot-eye coordination. Learn more about soccer and other ways to play in this issue of the SANDS Community Services Guide!
